It which passed the Assembly last week, came consideration in the Senate this morning. It is that the Assembly plan finds little favor in the which seems strongly inclined to the provay systement by the Governor and Controller of Commers to visit the various camps and receive the aperson. After the adoption of numerous cents, all tending to conform the bill to the one assed the last Legislature, it was recommitted in the special order for Tuesday next.

BANK COMMITTEE THE COMMITTEE OF THE SENATE THE COMMITTEE OF THE SENATE THE COMMITTEE OF THE SENATE THE SENAT

By this morning and fed to a very exciting debate, matter came up through a resolution offered by Mr. aver, instructing the Clerk of the House to have the

at he matter into the Assembly, especially as the Democratic pressess are flooding the country with it, but the
wily opposition leader undoubtedly imagined that the
reading of the resonation would throw a firebrand into
the ranks of the dominant party, an especiation which
was doomed to disappointment as the Union members
—sinus two—stood in unbroken phalanx on one side and
the two Union members of the Committee with the Demcrats on the other.

It ought to be remembered that this most remarkable
report has the signatures of only the Union members
affixed to it; the two others, as one them—Mr. Branfreth—forcibly remarked restreday, would have had
their hands withered rather than attach their names to
m. Yet the Chairman of the Committee—Mr. Andrus
—who has hitherto been much respected for soundness
of judgment and stability of principle, was deladed
enough to stand up in his place to-day and say that public opinion was altogether in favor of the report! No

by such men as Gen. Crooke, Mr. Redington, Mr. Wiltams, and Mr. Brandreth, and excelled by the friends
of Horatio Seymour and Ben. Wood; yet, when Mr.
Redington declared that the report was calculated to
parlyze patriots and encourage trailors, Mr. Andrus

ALBANY, April 11, 1864. CHENANGO CANAL EXTENSION.

The friends of this measure, which lately sed the Assembly by a large majority, complain that utice has not been done in this correspondence to the usiderations upon which they rest its claims to State ast very fully presented in the discussion on the floor, is the lange Canni-how constructed from the lot to be Singhamon, a distance of 96 miles—may be completed a the State line, near Athens, Bradford County, Pennylvania, and thus open interrupted communication between the fire Canal and the entire system of canals in the State, and the waters of the Chesapeake and of the Athantic Cean, via Port Deposit. They claim further that at Clinton, near Uties, are immense beds of iron ore of recular character, at least 300,000 tuns of which will at see find a market in Pennsylvania where it is in great request to mix with the native ores of that State. Large deposits of linestone lie in Chemango County, in this State, unlimited quantities of which are needed by the Peausylvania furnaces. Thus full freight will be farmished to boats on this canal, in both directions, riving it a great advantage over other lines ranning invonce mining districts which usually obtain freights are way only.

As to the oost of the work its friends say that it will fall far below the figures named. Estimates of the expense were made in 1832 and again in 1839, in each case by engineers of the highest private and professional character. The highest of these estimates places the entire expense at \$850,000, the lowest at \$70,000. The present canal has been completed over 30 years, and has been, for want of an outlet, a tax upon the Treastry. Its friends arge that its completion will for the reasons given entirely change this state of things. on entirely change this state of CHARITY APPROPRIATIONS.

The discussion on this bill was resumed and completed this morning, and the bill, with some amendments, calered to a third rending.

As it now stands, among other things, \$40,000 are appropriated to the benefit of destitute and orphan children, to be divided among the different counties in proportion to their valuation, established by the State Board of Equalization. I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place my pledged for payment, while for the debts of the United States self under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor by stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his will have the benefit of the interest. system of curing Deafness and Catarrh are such as to render success certain in my opinion.
